Comments from your City Administrator

Jeana L. Woods, CPA, ICMA-CM

The Mayor and Board of Aldermen recently met in an all-day event for the purpose of strategic planning. They have been holding this session annually since 2017 to outline their long-term vision and priorities to provide clear direction for better decision making. In addition to the annual budget workshops, held for the purpose of allocating financial resources, this is an important process in aligning resources to provide superior services to our community. The themes that emerged included economic development efforts to grow business and support existing businesses, providing services for our growing community, remaining transparent and accountable in our use of resources to supply the best service and programs to our citizens and visitors, and develop internally to be the best employer for our employees. A summary of the meeting will be published soon.

I hope you find value in the City's newsletter. In addition, the City provides a lot of information on our [website](#), including Board meeting activity, official City statements, and my office's report to the Board of Aldermen each month which can be found [HERE](#).

Please know that your comments and suggestions are important! Do not hesitate to contact me or other staff members. We are dedicated to being good stewards of our community and will continue to operate efficiently to deliver superior municipal services to our citizens and visitors.

From the Police Department

With all the recent Bear sightings in the area recently we thought we would talk about what you should do if you encounter a Bear near your home or business.

LEAVE THE BEAR ALONE AND GIVE IT SPACE TO LEAVE ON ITS OWN.

Contact your local Conservation Office or Law Enforcement

Remain calm and get to a safe place, such as in a house, business, or a car. (Not up a tree because Bears can climb trees)

DO NOT Approach the Bear. Give it as much space as possible

Encourage the Bear to leave the area by making loud noises, such as banging pots and pans and yelling

When its safe to do so, remove all food attractants from the property

Never feed a bear, either intentionally or unintentionally. Bears will eat out of Trash Cans, BBQ Grills, Birdfeeders, Horse Feed, Chicken Feed, Pet Food, Fruit Trees, etc.
