Comments from your City Administrator Jeana L. Woods, CPA

We began our 2019 as busy as we finished 2018! Departments are busy preparing for projects outlined in the budget as well as finishing others carried over from 2018. With spring at our doorstep, the Parks & Recreation department is especially busy with pre-season maintenance in preparation for league play to begin. This time of year, the weather can play favors or not in many outdoor projects. If we are not blessed with seasonally warm temperatures and minimal precipitation, our Public Works is prepared and ready to respond to road conditions to keep our city road ways passable and safe! So far this year our snow plowing hours and use of chemicals is relatively low and as we finish our winter season, we hope to continue with our not-to-shabby winter!

More about upcoming events and other information from our departments is included in

this newsletter. I hope you find value in it and please know that your comments and suggestions are important! Please do not hesitate to contact me.

We are dedicated to being good stewards of our community and will continue to operate efficiently to deliver superior municipal services to our citizens and visitors.
