The Osage Beach Police Department and the City of Osage Beach suffered an unimaginable loss with the passing of Officer Phylicia Carson. *Ozark Law* brought back bittersweet memories of the talented, community-focused law enforcement officer who approached the job with a unique mix of compassion, humanity, and humor. While we remain grateful for this final glimpse of Officer Carson, the show was also a painful reminder of our grief, felt especially by the officers who served by her side night after night.

Yet, our sorrow is nothing compared to the loss felt by her family. While we deeply appreciate the outpouring of support from the community, we ask that the Carson family's privacy continue to be respected.

Inquiries regarding the pending criminal case should be directed to the Missouri State Highway Patrol and Camden County Prosecutor's Office.
